Memo no. DULB/CTP/A3/2018/ 7180-7282  
Dated : 05-11-2018

**Subject: Development works to be carried out in the colonies notified as Civic Amenities & Infrastructure Deficient Municipal Areas.**

It has come to the notice of the Department that the Development works like water supply, sewerage, roads and street lights are not being carried out by various Municipalities in the colonies notified as Civic Amenities & Infrastructure Deficient Municipal Areas and are insisting that the individuals should first deposit the development charges.

In this regard, it is to clarify that the Municipalities need to initiate the development works in the colony once these are notified as Civic Amenities & Infrastructure Deficient Municipal Areas. However, while approval of building plans/NOC for Registration of Plot etc. it may be ensured that the development charges are duly deposited by the applicant.
